My reason for joining the OMCHA Board is to continue giving back to the community that I live in.

I consider myself a valuable asset to the organization due to my understanding and experience of maintenance of facilities such as ours. My hands on experience provides excellent value to the organization and "my can do attitude" and willingness to take on the task at hand provides an excellent resource for the organization to ensure things are dealt with in a timely fashion.

I am very aware of the Tennis and Hall operations and overall organization it takes to bring our association to the successful level that we are at today.
